# TALL MARK

travelling bard-jester

Like a muppet poking fun at the world, Tall Mark crafts songs of playful composition and finely-honed observational humour. You are invited to play through spirited debates over pizza toppings ("Small Matters"), the hysteria of bumping into an ex on the worst day of your life ("Oh, Hi"), and the serenade of an autobiographical piano ballad about a man who loses all his organs in freak accidents ("Bionic Man"). Tall Mark is sure to leave you with a smile on your face, a sparkle in your heart, and at least one moment of uncomfortable self-awareness in the depths of your soul.
